**AJAX®**

**COOPER-  
BESSEMER®**

**CSI™**

**ENTERPRISE®**

**SUPERIOR®**

**TEXCENTRIC™**

**TSI®**

**PENN®**

**The ideal training resource for your employees** A well-trained staff, educated in the fundamental operation and maintenance of your reciprocating compression equipment, is one of your best tools for improving performance, minimizing downtime, reducing your overall operating costs, and having a safer operation. **Cameron** has created

**The Learning Center** for just this purpose. A member of the **CAMSERV™** family of aftermarket services, The Learning Center is a dedicated technical training facility located in Houston, Texas. This **free** resource is designed to educate customers, operators and maintenance personnel in the specifications, operation and routine servicing of their reciprocating compression equipment.

**Contact Information:**

**Fax:** 281.809.1525  
**E-mail:** tlc@c-a-m.com

**AJAX® INTEGRAL GAS ENGINE COMPRESSORS**

**Prerequisites** None

**Target Audience** Operators, mechanics, technicians, and maintenance / equipment specialists responsible for the safe day to day operation and maintenance of AJAX integral gas engine-compressors.

**Workshop Content** This 4-day workshop provides a foundation of knowledge for all AJAX integral gas engine-compressors. This information can be applied to virtually all AJAX units and is very comprehensive in all areas of engine and compressor maintenance, operation and troubleshooting. This workshop is recommended for anyone who is responsible for the safe operation and maintenance of AJAX products, and for those who desire a thorough understanding of gas engine and compressor theory and technology not easily attained in the field.

**eAjax Sizing Software** This module is designed for product sales personnel, application specialists and engineers.

**Successful Completion** Pass a final exam with a score of 80% or better.

### A D D I T I O N A L I N F O R M A T I O N

**Class Times and Sizes** All 4-day workshops start at 1 p.m. on Monday and end at noon on Friday. On full days, classes begin at 8 a.m. and end at 5 p.m. Travel arrangements should be made to depart no earlier than 3 p.m. on the last day of the course. Class size min / max: Oklahoma City 5 / 18, Houston 5 / 16, Salina 5 / 20.

**Custom Workshops** In addition to our open enrollment workshops, we conduct advanced factory training for those involved in the startup and commissioning of new AJAX and SUPERIOR compressors. These workshops are designed for those companies that have maintenance teams designated for the startup and commissioning of new units. The Learning Center can also provide custom on-site training with a curriculum structured to meet your needs. For more information, contact The Learning Center or your local Cameron representative.

**Enrollment** Please fill out the attached enrollment form and fax it to 281-809-1525, email it to [tlc@c-a-m.com](mailto:tlc@c-a-m.com), or mail it to The Learning Center, Cameron, 16250 Port Northwest, Houston, TX 77041. For more information, contact The Learning Center at 713-354-1296. Do not consider an enrollment to be made until a confirmation letter has been received.

**Travel Requirements** All students are responsible for their own travel arrangements, including hotel and local transportation. Local hotel information and area maps will be included in the confirmation letter.

**What's Included** The training package includes lecture, discussion, hands-on, a complete take-home CD and a certificate of completion. Lunch is provided daily.

**Safety Equipment** There will be times when we are on the plant floor or in a lab environment for hands-on training. Safety shoes or boots are required. Canvas tennis shoes are not allowed.

**Cancellation** Written cancellation of a scheduled workshop shall occur 10 working days before the workshop start date if there are fewer than five people registered for that workshop.

**Experienced Communicators** With an average of 15+ years experience in the service, manufacturing and design of compression equipment, our instructors are ready to meet your training needs. They support The Learning Center from senior technical service or technical support roles where they are directly involved in day to day activities surrounding the same equipment presented in the workshops. The combination of practical experience and a comprehensive theoretical understanding of the equipment enables them to deliver complex ideas in a constructive, positive way. From the very basic to the most advanced levels, they have the ability to convey ideas clearly and concisely to help keep you motivated and on track.

# RECIPROCATING PRODUCTS TRAINING REGISTRATION FORM

Please fill out this enrollment form for free training and **fax it to 281.809.1525** or **mail it to The Learning Center, Cameron, 16250 Port Northwest Drive, Houston, TX 77041**. For more information, contact **The Learning Center at 713-354-1296**. Do not consider an enrollment to be made until a confirmation letter has been received.
